Zoning Certificate Submittal Requirements

A Zoning Certificate is required for residential accessory structures < 200ft².

- For accessory structures ≥ 200ft² a building permit is required.

All applications must be submitted at least ten (10) working days prior to the anticipated start of construction.

The applicant listed on the application form must be the property owner. Applications that do not bear the property owners name and signature will not be reviewed and will be returned to the applicant.

All of the following information must be submitted in order to obtain a Zoning Certificate:

_____ Completed Zoning Certificate Application

_____ Survey of property showing the location of the proposed structure, to scale, along with the distances from each property line and any other structure.

_____ Drawings or manufacturer's brochure and cost of proposed structure.

*Carports shall be open on at least two (2) sides.

*Carports not open on at least two (2) sides, shall be considered a garage.

*Carport surfaces shall be of an approved non-combustible material. Asphalt surfaces are permitted at ground level carports.
